

# Business to business supplier guide & directory for RSPCA Assured products

Jan 2023

# About this directory

Our mission, at RSPCA, is for all animals to be treated with compassion and respect. RSPCA Assured does this through ensuring farm animals are farmed to RSPCA welfare standards, and licensing the use of the RSPCA Assured Mark to communicate this to customers.

Demand for ethically sourced meat and animal derived products has never been higher, with sales of RSPCA Assured products growing 26% last year. To support this increasing demand, we have put this directory together to help businesses source products that are RSPCA Assured, from our certified supply chain members.

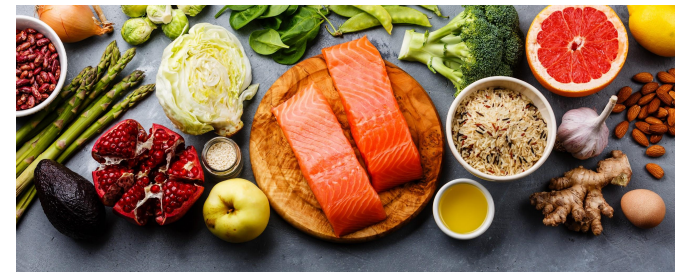

Throughout this guide, the certified supply chain members are separated by product type and business function, and listed in alphabetical order. We have included areas of supply when specific regions or countries apply, and have included links to each company website to contact them directly.

Should you have any queries, or wish to discuss more about the benefits of sourcing RSPCA Assured, please contact [partnership-team@rspcaassured.org.uk](mailto:partnership-team@rspcaassured.org.uk)
